# Forgetting To Lock The Door

# Forgetting to lock the door

---

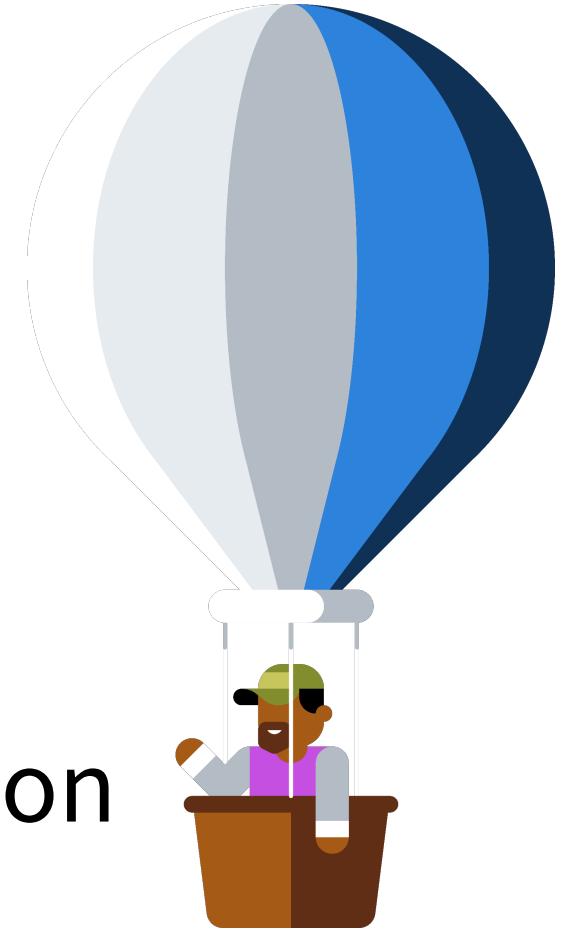

Not Segmenting your network

Not using Managed Identity

Not using Key Vault

Not enforcing Multi-factor Authentication

# Forgetting the Benjamin's

# Forgetting The Benjamins

---

Not using Reservations or Savings Plans

Forget to Budget?

Did you apply Hybrid Licenses?

Do you apply SQL DR licenses benefit?

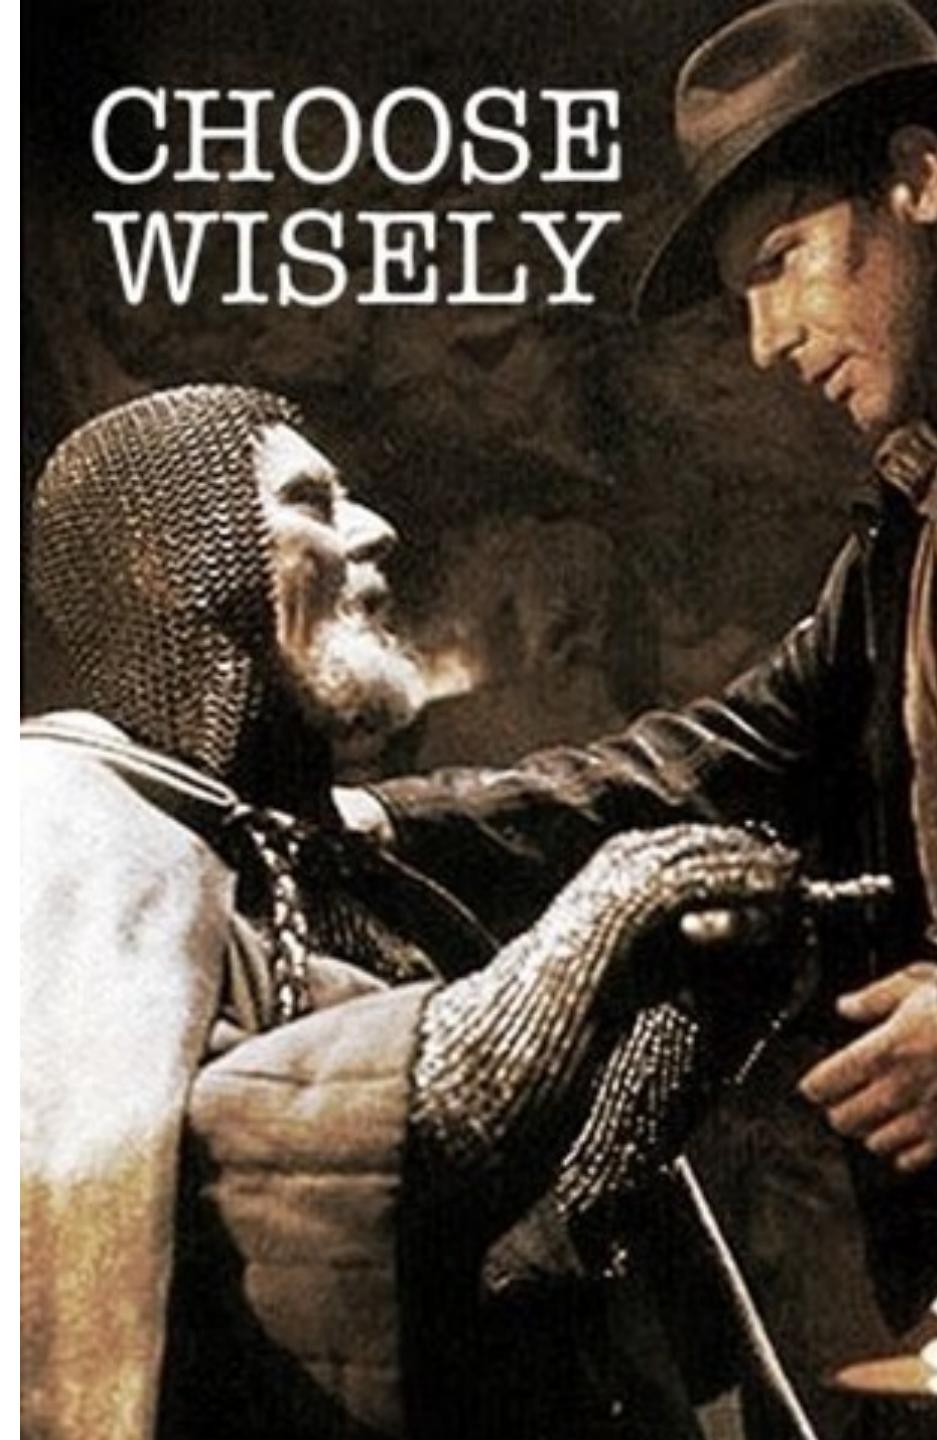

# Choosing The Wrong One

# Incorrectly Choosing

Choosing the wrong solution

Choosing the wrong migration path

Choosing the wrong implementation

# Forgetting Disaster Recovery

# Forgetting Disaster Recovery

---

Not defining your DR strategy

Choosing the wrong DR strategy

Not testing your DR strategy

# Summary

---

Plan the network

Proper security is hard to do

Monitor your spending

Evaluate all the options and choose wisely
